EXPERIENCE

Sam Digital Solutions **Feb 2026 – Sep 2026**
Full Stack Developer *Kolkata, India | Hybrid*

- Architected an **AI-powered crypto trading chatbot** using Next.js, Django REST Framework, RAG, Qdrant, and LLM APIs, integrating real-time market data, technical analysis, ML-based price predictions, and referral analytics.
- Engineered **Goinboxly cloud**, an email marketing platform using React.js, Node.js, Express.js, MongoDB, Redis, BullMQ, and AWS SES, implementing asynchronous campaign processing, email validation, and delivery analytics.
- Developed a **Multi-Agent whatsApp crm** using Next.js, Node.js, Express.js, MongoDB, and WhatsApp Cloud API, featuring RBAC, Admin/Agent dashboards, lead management, KYC workflows, and centralized conversations.

GreenAI Services Private Limited **Dec 2024 – Jan 2026**
Junior Full Stack Engineer *Kolkata, India | Onsite*

- Developed and deployed a scalable, SEO-optimized **Company website** on Google Cloud Platform (GCP), implementing responsive UI, REST API integrations, CI/CD pipelines, and performance optimization.
- Designed and integrated **AI-powered chatbot applications** for legal, enterprise, and healthcare domains using Python, LLMs, RAG, REST APIs, and vector embeddings, enabling document processing.
- Engineered **Python ETL and web scraping pipelines** using BeautifulSoup, Requests, and proxy rotation, processing **2.8M+ web records** and converting 100K+ Markdown documents into structured JSON datasets for LLM training.

PROJECTS

DailyTools247 Live Website

- Built and deployed **200+ online tools** across 18 categories, including PDF, image, developer, SEO, finance, and AI tools, attracting **10,000+ organic users** through SEO, optimized metadata, and organic search without paid advertising.
- Architected a scalable, **serverless, database-free platform** using React, TypeScript, Node.js, Express.js, and Redis caching, leveraging client-side processing and code splitting to optimize performance and minimize infrastructure costs.
- Implemented programmatic SEO, automated sitemaps, structured data, CDN caching, code splitting, and **OpenAI** integrations to improve search visibility and performance.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C++, SQL, HTML5, CSS3
Frontend: React.js, Next.js, Redux Toolkit, Zustand, Tailwind CSS, Material UI
Backend: Node.js, Express.js, Django, Django REST Framework, REST APIs, WebSockets, JWT, RBAC, BullMQ
Databases: MongoDB, PostgreSQL, MySQL, Redis, Qdrant (Vector database)
Cloud & DevOps: AWS (SES, EC2, S3, RDS, CloudFront, Route 53), GCP, Docker, CI/CD, GitHub Actions, Vercel
AI & LLM: RAG, LLM Integration, OpenAI API, Groq, Vector Embeddings, Semantic Search, Prompt Engineering
Tools & Concepts: Git, GitHub, Postman, Linux, Agile, Data Structures & Algorithms, Performance Optimization
AI Development Tools: OpenAI Codex, Claude, Cursor, Google Gemini

EDUCATION

Indian Institute of Engineering Science and Technology (IIEST), Shibpur **Dec 2020 – Jun 2024**
B.Tech in Information Technology | CGPA: 7.8/10 *Kolkata, West Bengal*

ACHIEVEMENTS

- Solved 400+ **Data Structures and Algorithms** problems on LeetCode, GeeksforGeeks, and other platforms.
- Contributed 10+ merged pull requests in Social Winter of Code 2023, 7+ in Hacktoberfest 2022, and 5+ in GirlScript Summer of Code 2022 **(Open Sources).**
- Worked as a Computer Science Subject Matter Expert at Chegg India 2021 **(Freelancing)**.
