EXPERIENCE | (Total: 2-Years)

Sam Digital Solutions

Feb 2026 – Sept 2026

Full Stack Developer — Freelance, Part-Time

UAE, Dubai - Remote

- Architected and developed the **Trader AI Chatbot** for Cartel AI using a **scalable RAG architecture**, integrating real-time crypto data, technical and fundamental analysis, **ML-driven price predictions**, and a referral system with real-time analytics using **Django** and **Next.js**.
- Engineered **Goinboxly Cloud**, a scalable **email marketing platform** with high-volume bulk email delivery, **advanced email validation**, campaign management, and real-time delivery analytics using the **MERN Stack**.
- Designed and developed a **multi-agent WhatsApp CRM** with role-based Admin/Agent dashboards, lead management, KYC workflows, and centralized customer conversations using **Next.js**, **Node.js**, **Express.js**, **MongoDB**, and **WhatsApp Cloud API**.

GreenAI Services Private Limited

Dec 2024 – Jan 2026

Junior Full Stack Engineer — Full Time

Kolkata, West Bengal, India - Onsite

- Architected and launched a **responsive company website**, optimized for performance, scalability, and SEO, and deployed on **Google Cloud Platform (GCP)** with CI/CD automation.
- Designed and deployed **AI-powered chatbot solutions** across **legal, enterprise, and healthcare domains**, including GreenAI Legal, Incopa (Germany), and Kokilaben Dhirubhai Ambani Hospital.
- Built scalable **Python automation pipelines** to scrape, clean, and process **2.8M+ web records** using **BeautifulSoup** and **Requests** with proxy rotation; transformed **100K+ Markdown documents** into structured **JSON datasets** for legal-domain LLM training.
- Contributed to the development of a **multilingual LLM-based grammar checker**, delivering high accuracy across real-world evaluation datasets.

PROJECT

DailyTools247 | [Live Website](#) | *REACT, TYPESCRIPT, NODEJS, EXPRESSJS, VERCEL, REDIS, OPENAI*

- Built and deployed a **168-tool utility platform** across 17 categories, including PDF, image, developer, security, finance, SEO, and AI tools, serving **10,000+ users** through organic search with **\$0 ad spend**.
- Architected a **serverless, database-free system** using React/TypeScript, Node.js/Express, Vercel, client-side processing, and optional Redis caching, eliminating per-user storage and keeping infrastructure costs at **\$0/month**.
- Engineered a **programmatic SEO system** with structured data, automated sitemaps, metadata, and internal linking across 168 tool pages, driving organic acquisition without paid marketing.
- Optimized performance through **CDN caching, build-time prerendering, client-side compute offloading, and Vite code splitting**, while integrating AI capabilities using Transformers.js and OpenAI for AI-assisted utilities.
